

				
<b>JUNE 17</b>	Short Courses	Short Courses	Short Courses	Short Courses
	Extracellular Vesicles	Quantitative Immune Profiling and Immune Monitoring Internet of Diagnostic Things	Quantitative Immune Profiling and Immune Monitoring	Internet of Diagnostic Things
<b>JUNE 18-19</b>	3D Cellular Models	Immuno-Oncology Biomarkers	Preclinical Strategies, Models & Tools in Oncology	Digital Health: Pharmaceutical Executive Summit
	Preclinical Strategies, Models & Tools in Oncology		Combination Cancer Immunotherapy	
	Chemical Biology and Target Validation		Immuno-Oncology Biomarkers	
	CNS Targets and Translational Strategies		Immuno-Oncology Clinical Trials Strategy and Execution	
	Optimizing Drug Metabolism & Pharmacokinetics			
<b>JUNE 19-20</b>	iPS Cells for Disease Modeling and Drug Discovery	Clinical and Translational Biomarkers	Emerging Immuno-Oncology Targets and Modalities	Digital Biomarkers: Biosensors, Wearables, and mHealth
	Patient-Derived Tumor Organoids		Patient-Derived Tumor Organoids	
	Target Identification & Phenotypic Screening		Small Molecules for Immuno-Oncology Therapeutics	
	Blood-Brain Barrier	Digital Biomarkers: Biosensors, Wearables, and mHealth	Cancer Immunotherapy Models	
	Predicting Drug Toxicity		Immuno-Oncology Commercial and Business Strategy	
	Small Molecules for Immuno-Oncology Therapeutics			
	Cancer Immunotherapy Models			
	Applying 3D Models
